- English (Fluent)
- Spanish (Intermediate)

PROFILE

As an aspiring Machine Learning Engineer with a passion for innovation, I am actively seeking a position where I can apply my blend of management, technical, and machine learning competencies to drive corporate objectives forward. My aim is to innovate processes within the communication domain, leveraging machine learning techniques to drive enhancements and efficiently deliver project outcomes.

WORK EXPERIENCE

- KUET Career Club** 2024 - PRESENT
Vice President
 - Led strategic planning and program development for the club.
 - Enhanced career readiness and networking opportunities through impactful events and collaborations.
- TRY** 2020 - PRESENT
Volunteer
 - Coordinated community service and fundraisers for underprivileged communities through the university social work club

PROJECTS

- Website Design** A hotel booking website with both frontend and backend development using HTML, CSS, JavaScript and .NET
- Database Management** A database on Hall Dining Management using Oracle platform and SQL language
- House Price Prediction** A machine learning model that estimates house prices of Dhaka City based on input parameters.
